

FALL WEED SPRAY NOTICE

This year the Lyon County Highway Department will be doing a fall spraying of roadside ditches. Lyon County will allow individual owners to come into the office to sign up for areas of roadside ditches they do not want sprayed.

Areas not to be sprayed shall be marked on a map and the owners shall then be held responsible for vegetation control in 2009. Vegetation control in the right-of-way includes brush, trees, thistle, leafy spurge, and other noxious weeds. Should the weed inspector notify us or if problem areas are found in 2009 that were designated as no spray in the fall of 2008, the County will spray those areas in 2009 and bill the property owner accordingly.

A map must be filled out at the Engineer's Office, 504 Fairgrounds Road, Marshall, MN. All areas you wish not to be sprayed must be identified on the map prior to October 10, 2008. Spraying will begin on October 13, 2008.
