

FACILITY CLEANING

DEEP CLEANING

Bathrooms and showers are thoroughly cleaned once a day, including touch surfaces, floor traffic areas, seats and bathroom fixtures.

SPOT CLEANING

EPA approved disinfectant product used is rated at 99.99% effectiveness against coronavirus. All touch surfaces are spot cleaned including handles, counters, seats and lids, fixture handles, light switches, door handles, etc.

YOUR CLEANING

Your best method of protection is done by YOU:

- Follow the current CDC sanitary practices including handwashing, social distancing and self evaluation.
- Feel welcome to use the spray disinfectant and antibacterial soap provided in our facilities to clean again as desired. Please be respectful and leave the spray disinfectant and paper towels in the same location.
- Bring your own sanitary products, gloves, etc. as desired.
